**'STORY'**  
**'The thirsty Crow'**

One hot day a crow was very thirsty. He looked for water here and there. But could not find it. After a long time he saw a pot. But there was very little water in it. And the crow could not reach the water. He thought a plan. He picked up some pebbles one by one and dropped them into the pot. The water came up to the top. The crow drank the water and flew away happily.

The moral of the story is. Where there is a will there is a way Thank You.
